HIGHLY IMPORTANT DISCOVERY,

Fousel's Pabulum Vitae

Has now gained its position before the public as

THE ONLY REMEDY

yet discovered for the speedy relief and permanent cure of

CONSUMPTION,

Chronic Colds, Hoarseness, Bronchitis, and all other Pulmonary Complaints,

The discovery of an eminent French Physician after many years of study and observation, it continually meets with the most ASTONISHING SUCCESS in the treatment of the above complaints.

Its unrivaled popularity, numerous certificates of remarkable cures, the recommendation of some of our most eminent physicians, and the analysis of Dr. A. A. Hayes, the State Assayer, all give convincing proofs of

THE UNRIVALLED VIRTUES
And Unqualified Superiority

of this preparation to any other remedy now extant and are constantly contributing to give it a wider and more enviable reputation. From its volatile nature, it affords vapors freely, and consequently is DIRECT IN ITS ACTION UPON THE LUNGS AND AIR PASSAGES.

The discredit which has been thrown upon all preparations not prescribed by regular physicians, by reason of the recklessness with which worthless and injurious compounds have been imposed upon the public, will tend to deter many from availing themselves of the benefits of this preparation. The agent, however, assures the public in all sincerity, that this medicine is not only *perfectly safe and free from all other deleterious ingredients* but guarantees that it will effect all that he represents, not having heard of a single case where it has failed to give satisfaction.

It is warranted to cure
Consumption by using One to Six Bottles;
Bronchitis by using One to Three Bottles;
Coughs by using less than One Bottle;
Colds by using it Two to Six Days;
Bleeding of the Lungs by using less than One Bottle;
Hoarseness by using less than One Bottle;
Soreness of the Chest, by using less than One Bottle.

Scientific American.
PROSPECTUS.
Volume Fourteen.
BEGINS SEPTEMBER 11TH, 1858.

MECHANICS, INVENTORS, MANUFACTURERS AND FARMERS.

THE SCIENTIFIC AMERICAN has now reached its Fourteenth Year, and will enter upon a New Volume on the 11th of September. It is the only weekly publication of the kind now issued in this country, and it has a very extensive circulation in all the States of the Union. It is not, as some might suppose from its title, a dry, abstruse work on technical science; on the contrary, it so deals with the great events going on in the scientific, mechanical, and industrial worlds, as to please and instruct every one. If the Mechanic or Artisan wishes to know the best machine in use, or how to make any substance employed in his business—if the Housewife wishes to get a recipe for making a good color, &c.—if the Inventor wishes to know what is going on in the way of improvements—if the Manufacturer wishes to keep posted with the times, and to employ the best facilities in his business—if the Man of Leisure and Study wishes to keep himself familiar with the progress made in the chemical laboratory, or in the construction of telegraphs, steamships, railroads, reapers, mowers, and a thousand other appliances, both of peace and war—all these desiderata can be found in the SCIENTIFIC AMERICAN, and not elsewhere. They are here presented in a reliable and interesting form, adapted to the comprehension of minds unlearned in the higher branches of science and art.

TERMS—One Copy, One year, $2.00, One Copy, Six Months, $1; Five Copies, Six Months, $4; Ten Copies, Six Months, $8; Ten Copies, Twelve months, $15; Fifteen Copies, Twelve Months, $22, Twenty Copies, Twelve Months, $28, in advance.

Specimen copies sent gratuitously for inspection. Southern and Western money, or Postage Stamps, taken for subscriptions. Letters should be directed to MUNN & CO., 128 Fulton Street, New York.

☞Messrs. Munn & Co. are extensively engaged in procuring patents for new inventions, and will advise inventors without charge, in regard to the novelty of their improvements. aug24

S W A I M ' S
☞Celebrated Panacea,
FOR THE CURE OF
INCIPIENT CONSUMPTION,

Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin and all Diseases arising from Impurities of the Blood, and the effects of Mercury

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures—for the certificates of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and has had the singular fortune of being recommended by the most celebrated physicians and other eminent persons. Among others by

W. Gibson, M. D., Prof of Surgery, Pa. University
Valentine Mott, M. D., Prof. of Surgery, New York University
W. P. Dewees, M. D., Prof of Mid., Pa. Univ.
N. Chapman, M. D., Prof of Physic, Pa. Univ.
T. Parke, M. D., Pres't College Physicians, Phila.
Dr. Del Vallo, Professor of Medicine, Havana
Jose Eourenco de Luz, Prof of Surgery, Lisbon
J. Chipman, Member Royal College Surgeons London
G. W. Erving, late Minister to Spain.
Sir Thomas Pearson, Maj Gen. British Army
Gilbert Robertson, British Consul, &c., &c.

Besides a large number of Ministers of the Gospel, Members of Congress, Philanthropists, &c.

And also, the wonderful cures effected by Swaim's Panacea, have for many years made it an invaluable remedy. The Panacea does not contain mercury in any form, and being an innocent preparation, it may be given to the most tender infant.

The retail price has been reduced to $1,50 per bottle (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass

"SWAIM'S—PANACEA—PHILADA,"

and having the name of JAS. SWAIM stamped on the sealing wax, and written on the label covering the cork, and a new label for the side of the bottle, composed of geometric lathe work, comprising nine different dies, which have been turned for the exclusive use of the proprietor, by Draper & Co., bank note engravers, of Phila. Four dies of different patterns form the body of the work, and in the centre is a portrait of the late Wm. Swaim, separated from the borders by two circles of lathe work. The words "Swaim's Panacea" are engraved conspicuously on two turned strips, and a large semi circular die forms the upper margin. The borders are composed of plain lathe work strips, outside of which is engraved, in small letters, the entry of the copyright. Also,

Swaim's Vermifuge,

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and Ague, Bleeding Piles, Sick Headache, &c., &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge.

Prepared only at SWAIM'S LABORATORY THE OLD STAND, Seventh Street, below Chesnut, Philadelphia, and sold by all the respectable druggists in the United States.

CAUTION TO THE PUBLIC

Persons wishing to obtain the genuine SWAIM'S PANACEA and SWAIM'S VERMIFUGE, should be careful to observe that the name

SWAIM

is spelled correctly on the bottle and labels, or they may be imposed on by medicines made in imitation of them by a person bearing a somewhat similar name, well calculated to deceive.

MAINE STATE
AGRICULTURAL SOCIETY.

THE objects of the Society are to bring together the best specimens of Stock, and productions of Household Manufactures, and labor saving Machines of all descriptions, and hereby stimulate a laudable emulation to excel in every department of Industry. We see no way of bringing about these desirable results so satisfactorily as by an exhibition, where the public may freely examine and pass upon the merits of stock or articles exhibited. We believe such Exhibitions are the medium best calculated to bring to notice the popular merits of farm stock and productions and the mechanic finds his machine, carriage, or fabric, much better understood than by any other system of advertising. We desire to make the Exhibition of 1858 surpass all former ones.

We invite all to exhibit their stock, productions, fabrics, and machinery of any kind. The Rotunda of the State House and adjacent Halls have been granted to the Society for its use, and a large building is now being erected for the exhibition of heavy articles, farming utensils, &c.

Liberal arrangements have been made for the transportation of stock, and articles for exhibition, either one or both ways, free, on presentation of the Secretary's certificate that such stock or articles have been on exhibition and not changed owners. Exhibitors are requested to give two weeks' notice to the Superintendents of the Roads over which they may design to pass—of the amount of stock and articles, and the Station at which it is to be taken upon the Road, so that suitable provision may be made for transportation. The Roads that will convey stock, &c., *free*, are as follows.—Portland, Saco, and Portsmouth, Kennebec and Portland, Somerset and Kennebec Railroads. The Roads that will convey Stock, &c., *at half price*, are as follows:—Penobscot and Kennebec, Atlantic and St. Lawrence, York and Cumberland Railroads.

The Roads that offer to convey Stock *free* will run a Special Train on Monday and Saturday of the week of the Exhibition—other days, by regular trains, at *half price.* Articles may be sent any time during the week *previous* at *half* price (All stock at the owner's risk.)

The Show and Fair will be holden at Augusta, on the 21st, 22d, 23d and 24th of September, 1858. Contributors who intend exhibiting articles in the Halls are requested to make application for space to the Superintendent, Capt. CHARLES SIMMONS, as early as one week previous to the time of Exhibition, so that the least delay possible may be had in their arrangement.

Our former Exhibitions have been of a high order, and productive of much good, and still hoping but a general interest towards our Society and its efforts may be felt throughout the State.

☞REMOVAL.
United States and Foreign
PATENT AGENCY.
SAMUEL COOPER,

Late Principal Examiner of Patents in the United States Patent Office, at Washington,

HAS REMOVED HIS OFFICE TO

WEBSTER BANK BUILDING,
13 Exchange Street, Boston,

PATENTS secured in the United States, and in all other patent granting countries. Specifications and drawings prepared. Caveats filed. Reconsiderations procured, of applications that have been rejected upon imperfectly prepared papers. Interferences prosecuted. Re-issues and extensions procured, and in general, all business connected with the Patent Office transacted with care and promptness.

British and other foreign patents procured through prompt and confidential agents in London and Paris.

Persons residing at a distance may obtain all necessary information, and have their business transacted, by writing to the subscriber, without the trouble and expense of a visit to Washington.

He begs leave to refer those unacquainted with him to the following testimonials.—

From the Hon. Charles Mason, Commissioner of Patents.

U. S. PATENT OFFICE, Feb. 22, 1853.

I take great pleasure in stating that during the time I have been acting as Commissioner of Patents, Samuel Cooper, Esq. of Boston, has been engaged as Solicitor, and has been in that capacity in constant correspondence and intercourse with the Office, he has evinced a thorough acquaintance with the Patent Law, and with the rules and practice of the Office, a close attention to the interests of his clients, and a marked candor and courtesy that has rendered the transaction of business with him a pleasure. I have no hesitation in stating that I regard him as one of the very best agents for the transaction of business with the office with whom I am acquainted.

CHARLES MASON, *Commissioner.*

From the Examiners of the Patent Office.

The undersigned, Principal and Assistant Examiners in the United States Patent Office, have for several years been well acquainted with Mr. Samuel Cooper, late a principal Examiner in the office, and take pleasure in stating that he is a gentleman of the highest moral character, of uncommon knowledge in the business and practice of the office, and that his scientific attainments are such as eminently fit him for the business in which he is about to engage.

California Steamers,
Carrying the United States Mail.
5th and 20th of each month.

Through Tickets, including transit of the Isthmus, via Panama R. R.

CAUTION TO THE PUBLIC.

On account of the numerous frauds and impositions on travelers, those bound to California are cautioned to buy Tickets at the only authorized Agencies of the United States Mail Line, as below.

By order of the Post-master General, the United States Mail Steamers will hereafter be despatched from New York to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers *without any extra expense.* This is the *only* line giving entire Through tickets, guaranteeing no detention on the Isthmus.

Transit made in *four hours entirely by daylight*, thus avoiding the great exposure by night in open boats to fever and ague, and 200 miles of dangerous lake and river navigation, over rocks and shoals.

Arrangements have now been completed so that the regular U. S. Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail Line a *sure* and *short* passage, with the greatest comfort and safety to health.

☞ *Tickets must be signed by one of the Company's Agents before they will be recognized by the Agent at Panama*, and tickets thus signed can be obtained of the *only authorized Agent* for the U. S. and Pacific Mail Steamship Companies, in this city.

LINCOLN'S
WATER PROOF BLACKING,
AND LEATHER PRESERVATIVE.

Keep your Feet dry and you will seldom need a Physician.

IS it not a truth that when the feet are often wet, it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and dried, it soon becomes hard, stiff, and cracks, but when it is water-proof this is remedied. By the application of this preservative, it remains soft, and entirely impervious to water.

After being engaged for 25 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting on different compositions, and found it easy to make it water-proof, but at the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make leather water proof, but likewise softens the leather, and it will

Positively wear twice as long.

I have now used it for three years and a large part of that time have worked in a wet Tannery, with my boots constantly in water, and have not had my feet wet during that time. I can therefore in all confidence, recommend it to the public as the best article in the market.

ADDISON ON THE TELEGRAPH. In the 241st number of the Spectator is a playful suggestion, by Addison, in regard to the absent lovers, which although written early in the eighteenth century, has found its realization in the middle of the nineteenth. After quoting a letter from Asteria, complaining of the regret she felt at the absence of her husband, and suggesting various remedies for her relief, among which was one of having an hour set apart for mutual remembrance in prayer, he adds the following:

"Strada, in one of his prolusions, gives an account of a chimerical correspondence between two friends, by the help of a certain loadstone, which had such virtue in it that if it touched two several needles, when one of the needles so touched began to move the other, though at never so great a distance, moved at the same time and in the same manner. He tells us that the two friends, being each of them possessed of one of these needles, made a kind of dial plate, inscribing it with the four and twenty letters, in the same manner as the hours of the day are marked upon the ordinary dial-plate.

They then fixed one of the needles on each of these plates in such a manner that they could move without impediment, so as to touch any of the four and twenty letters. Upon their separating one from another into distant countries they agreed to withdraw themselves punctually to their closets at a certain hour of the day, and to converse with one another by means of this their invention. By this means they talked together over a whole continent, and conveyed their thoughts to one another in an instant, over cities or mountains, seas or deserts."

This strange vagary of an ancient writer quoted by Addison for the amusement of his readers, has wonderfully become a fixed fact in the progress of modern science. How little did Addison dream that what was then a vagary existing in a playful [illegible] in the minds of wise men to become [illegible] until the whole invention should be perfected by which the two continents are now bound together, and thought is made to pass between them with the rapidity almost of its own motion.

A CAT RACE. Matches between carrier pigeons are in great favor in Belgium, and it is a race which has inspired some ingenious individuals in that country with the idea of organizing a match between cats. These animals, it is already necessary to observe, possess to a high degree the faculty of finding their way back to their homes under the most adverse circumstances. According to the Liege [illegible] a match of this kind [illegible] while [illegible] that town. Eighteen cats belonging to different persons in the quarter of the town called Outre Meuse were taken a distance of a league [illegible] at midnight. In exactly [illegible] the first cat arrived home and carried away the first prize, and all the others arrived [illegible] succession.—Three tom cats, [illegible] triumphed over every [illegible] however, make their appearance until [illegible] Their names are [illegible] out of all subsequent racing [illegible]

CURIOUS FACT. As an instance of "what printers' ink can do!" [illegible] just been brought to our notice, and [illegible] than useful to those who would [illegible] goods to the best advantage. At a recent [illegible] in this city, a lot of [illegible] articles which had been very liberally advertised, brought a very high price. Subsequently some of the purchasers [illegible] up a portion of these goods at auction, which had not been so liberally advertised, did not realize on them more than one third of what they had given.

One fact like this speaks volumes. Judicious advertising will in fact, sell anything well, and that is not in auction rooms alone, but anywhere. There are always purchasers in the world, if they can only be got hold of—and the way to get hold of them is to bring the facts before their eyes. That is the only way, and yet [illegible] does not advertise the hundredth part [illegible] it might, and that with benefit.

The frigate Sabine, though one of the [illegible] vessels in the navy, has never been [illegible]. She was put on the stocks in 1812 and took over thirty years to be fit for launching, and more more to get ready for sea. The Alabama, 74, was on the stocks at Portsmouth twenty years ago, and she is there still. The New Orleans, unfinished and roofed in, has been a show at Sackett's Harbor these forty years.—The New York, at Norfolk, is hardly nearer completion than she was in 1837. The Vermont and Virginia have been standing on the stocks in the Boston Navy Yard, while a whole generation of cotton, [illegible] ships have been built, used, and grown rotten.

HOW NEW CALEDONIA WAS SETTLED.—The following rhymes are [illegible] in the Canadian press, and are considered apt and pointed:

THE TEMPTATION.

New Caledonia's Governor unto himself said he—
"Great stories told of heaps of gold will settle this countree
For there be hosts of jolly greens who never stop to think
Who blindly swallow every hook that is hid in printer's ink."

THE RESULT.

Full thirty thousand brawny men to Fraser River ran,
And find that Yankee Doodle done Yankee Doodle *done*.

YOUNG LADIES BEWARE.—Several of our exchanges have recently condemned, in fitting terms, a practice followed by a few unprincipled daguerreotypists, that is extremely reprehensible. It is that of retaining duplicates of portraits, in cases where the like cases happen to be of good looking young ladies, and disposing of them to strangers who exhibit them in bar rooms and like places. Where more than the required number of likenesses are taken, ladies should insist on having the rejected duplicate effaced immediately.—*Boston Traveller.*

TWO DAYS' CESSATION FROM DEATH IN BOSTON.—On an average about twelve persons out of the 165,000 inhabitants of Boston die every day of the three hundred and sixty five making up the year. During the present year, however, two days have passed without the occurrence of a single death, one day being in February and the other in April. It is not often that the grim messenger ceases his visit to a city like our own for a single day, in fact it has not occurred, we believe, for the last dozen years or more.—*Traveller.*

CHARCOAL PRESERVATIVE.—A Connecticut lady says:—"Some chickens during the recent warm weather, had become slightly tainted. These were stuffed with freshly heated char-

cool, and in twelve hours were as sweet and fresh as could be desired, not leaving the least disagreeable odor or flavor. Shortly after, on examining some fresh pieces of pork, and fearing that they could not be preserved until it was convenient to cook them, she packed them in a pan of powdered charcoal, and thus kept them with complete success."

The Election.

The election passed off yesterday with an usual carelessness on the part of the Republicans in this vicinity—but not with that almost criminal negligence which we fear has caused our friends to lose the Third Congressional District. On the other hand, the returns justify us in claiming the re-election of Foster in the Sixth, by a handsome majority: and when it is remembered what extraordinary efforts were made by all the Pro Slavery party to elect Bion Bradbury—how all the blandishments of wealth and the seductive influences of high toned good-fellowship, made potent and personal by the persuasive address of one who, if his strength fairly matched his polished courtesy, would be the Aaron Burr of Maine, and who had the most zealous aid which all the national administration could render to make his campaigning a triumphal procession, and the election a victory—when that District was made the Thermopylæ of New England by the opposition, and we had been taunted for weeks with our anticipated defeat, it is peculiarly gratifying to see the firmness with which the Republicans of the East breasted the inundation of pro-slavery despotism, and have come out of the contest with victory upon their banners and the love of liberty and of right unsullied in their hearts.

The loss of the third district is mortifying to us, but it can be easily taken back at any moment. The Republicans can learn a lesson by reflecting upon the Third and Sixth districts, and that is the necessity of eternal vigilance.

Union of the Boys' and Girls' High Schools.

Messrs. Editors:

In your issue of Saturday, under the head of "*Important Change Proposed*," there were some statements made in reference to the action and the purposes of the Superintending School Committee, which if unexplained or unqualified, may lead the public into error in regard to that matter. At least, the writer of this so infers, from queries which have been put to him since the appearance of your notice referred to. A few lines will suffice for a brief explanation of the course of the Committee, and for correcting any misapprehension which may have been caused by the paragraph in your paper.

Some two or three months ago, the following proposition was submitted and adopted at a regular meeting of the Superintending School Committee, viz:

"*Voted*, That a committee of three be raised to inquire into the *expediency* and *practicability* of uniting the High School for Boys with that for Girls, with one Teacher as Principal, and such Assistants as may be necessary."

The Committee (or rather Sub-Committee) of three was raised, and took the subject into consideration.

About a month ago that Committee reported in part upon the subject, giving their opinion that it was *practicable*; but stating that they were not then prepared to give their opinion upon its *expediency*.

Their Report was accepted and it was then re committed to the same Committee for their opinion upon the *expediency* of the change proposed.

On Thursday evening last, the said Sub-Committee, after having made inquiries by means of a correspondence with a number of eminent friends of education and teachers abroad, reported upon the *expediency* of the plan proposed, and closed their report with the following expression of their opinion, viz:

"Your Committee, in accordance with what has been adduced, has arrived at the conclusion that a union of the two High Schools in one, is *expedient*, but that in order that this union should be pleasant and profitable to the pupils, satisfactory to the parents and friends, and propitious to the interests and cause of education and general intelligence, it is desirable that the subject should be freely and thoroughly discussed among the parents of the scholars and all others who may feel an interest in the schools,—and that it should receive their approbation generally;—in default of which, the proposed change could only prove disastrous; however excellent it might be, abstractly, or even in practice wherever such approbation should be accorded to it."

This Report of the Sub-Committee was accepted by the Board of the Superintending School Committee; and that Board farther voted, that the proposed union of the two High Schools was expedient provided the [High] School house in Abbot Square can be so arranged as to accommodate, suitably, the two united schools.

"The Board also directed that an abstract of the Sub-Committee's Report should be prepared and offered to the editors of our city papers, for publication in those papers, should their editors see fit to insert it therein.

This abstract will be prepared and offered for publication as proposed, as soon as practicable after the smoke and the dust of this day's election shall have dispersed.

In the notice in Saturday's paper, you say: "We fear that it is contemplated by a portion of the Committee to carry the measure into immediate execution." The writer of this communication is not aware that a single individual member of the Superintending School Committee intends or thinks to have the two Schools united before the commencement of the Winter term of the Schools in December next. And by inference from the concluding paragraph of the Report of the Sub-Committee,—given above,—as well as from the opinion expressed by his colleagues of the Superintending School Committee in his conversation with them, the writer feels himself authorized to assert, that the Committee have no idea or intention to make the proposed change until there shall have been ample time afforded for a full and free discussion of the subject in our community, and until the opinion of an unquestionable majority on that community shall unmistakably have given its utterance in favor of the change which has been proposed.

It is the opinion of the writer of this, (his own individual opinion, of course,—and entitled to weight only as such,—) that a majority of the Board of the Superintending School Committee do not think it practicable,—nor will they attempt to effect a union of the two Schools before the commencement of the next school year, in April next.

ONE OF THE SUB-COMMITTEE,

Monday, Sept. 13th.

THE BAPTIST ALMANAC for 1859 has just been issued by the American Baptist Publication Society. It contains 36 pages. We gather from it the following summary of the Baptists in the United States:—

Associations	505
Churches	11,600
Ordained Ministers	7,141
Licentiates	1,025
Baptized in 1857	53,508
Total Members	923,193

Besides these there are the Anti-Mission Baptists, 58,000; and the Free Will Baptists, 58,310; and of Disciples, and of other denominations that practise immersion, about 400,000. The increase in the last ten years has been, 144 Associations, 3395 Churches, 2191 ordained ministers, and 236,446 members.

Letters from Capt. M'Clintock, of the Arctic expedition inform us that he was unable to get into the North water last season, and passed the winter in the pack in Melville Bay. He was drifted southward with the pack from 75½ N. to 63½ N., 1194 geographical miles. For a whole month in Melville Bay his fate hung in the balance. The last letter is dated May 24, 1858, at Disco, where he was recruiting, and is as follows:

"Disco, May 24. For the early part of this season I shall be among the whalers, leisurely following their motions; but, should they not persevere to the North as long as I think desirable, I must then judge for myself whether to persevere or return South with them and seek a Southern passage. I propose sailing to-morrow morning.

LOCAL AND MAINE NEWS.

HOW IT APPEARS ABROAD.—We copy the following extract from a recent letter in the "State of Maine," from a "Maine Boy Abroad." It shows very distinctly how the true interest of the State is seen by her sons in other lands, if it is not so widely seen as we could desire at home. The writer dates at "*Woodland, Louisiana, Aug 13th*," and says:

MR. EDITOR:—Riding home alone, yesterday, in my 'Portland buggy,' from Centerville, Miss. over an *awful* road, my thoughts were carried to my native State.

If the people of Maine would look to their true interests, look at them as her sons at a distance do see their future benefits, and see how they have enriched other States (I mean Railroads,) they would go to work on the Aroostook R. R., as they did on the Atlantic & St. Lawrence, and it would soon be built. But says one, you are a slave-holder and have no interest in the prosperity of Maine. Indeed, I don't own a slave, and never expect to do so, but I have a *growing* interest in Maine, and hope yet to live and die there. The sons of Maine abroad, feel proud of their native State, and many sigh to return, and many will return and join with their noble fellows in building up the prosperity of the noble 'Pine Tree State.' Put your shoulder to the wheel, Portland Boys, and set the car a rolling, and many will come to your assistance of whom you little dream.

"IN THE NAME OF THE PROPHET! FIGS!" In the garden of Mrs. Joshua Page, says the Bath Times "we saw on Wednesday last, two fig trees growing in the open air, from 8 to 10 feet high, literally covered with fruit in almost all stages of development, from the small fig just assuming shape to the ripe full grown article. A half peck of ripe figs had been gathered from the trees when we saw them. It is a sight which, probably never was seen elsewhere in this State or in New England. Gentlemen who have lived South say that even as far South as Baltimore they have never seen so fine a sight. The trees are placed in a cool cellar in the winter, the foliage falls off but the fruit which puts out one season holds on and ripens the next. Thus, although ripe fruit is gathered every year, in this climate it requires two seasons to mature the crop."

MAINE BAPTIST ASSOCIATION.—We have an official copy of the minutes of the 34th annual meeting of the Maine Baptist Convention, held at Waterville June 15—17, 1858. It makes a very neat pamphlet of 44 pages, from the office of Zion's Advocate, Portland. The summary shows as the fellowship of the Convention, 13 Associations, 276 Churches, 185 ministers, 13 licentiates, members in 1857,—19,480, baptized in 1857,—756.

AN INTERESTING RAILROAD CASE. *An owner of Land justified in tearing up rails.*—At the Supreme Court at Auburn, Judge May presiding an indictment was found against Josiah Perkins for tearing up the rails of the Buckfield Branch Railroad. The indictment came up for trial last week. We gather from the Advocate the following account:

The defendant admitted the tearing up of the rails, and stated that he had sent a printed notice to F. O. J. Smith, the proprietor of the road, that he should proceed to tear up the rails on the 6th of Sept., 1857, and on that day he did proceed to tear them up.

The County Attorney opened the case to the jury and introduced the testimony of Mr. Smith, the proprietor. After this evidence was in, counsel for defendant moved that the Court instruct the jury to find a verdict for defendant on the evidence of the Government, contending—

1st. That the indictment being for an injury to the Buckfield Branch, could not be sustained in the name of the Portland and Oxford Railroad Company.

2. That it being admitted that the defendant was the owner of the land over which the road passed, and that the damages having been assessed by the Co. Com., and not paid, he had a right to make such a use of the land as he saw fit, and a man could not be considered as acting maliciously in making such use of his own land.

3d. That there was not sufficient proof of the organization of the Company.

Mr. Fox, counsel for defendant, in the course of his remarks, said that he assumed no responsibility in this matter, that he himself advised the defendant to the course he had pursued, and that his shoulders were broad enough to sustain all the blame thereof. The ablest lawyers in the State had been consulted and coincided with his views.

The Court intimated its opinion that the action could not be maintained, upon which the County Attorney proposed to enter a nol pros, to which Mr. Fox objected, and insisted upon a verdict of acquittal. Mr. Smith thought a verdict of acquittal might prejudice a civil suit for damages, but Judge May said that the verdict of acquittal could not affect in the least the civil suit, and instructed the jury to bring in a verdict of not guilty, which they did without leaving their seats.

Walton and F. O. J. Smith for State.

Edward Fox for defendant.

The American and Republican State Conventions which have been in session at Syracuse, N. Y., failed to unite upon a ticket after having mutually agreed upon a platform. The Americans appear to have taken umbrage at the free discussion in which the Republicans indulged, and declined to carry out the arrangements which had been made for a division of the State ticket. Probably the ticket will be adjusted before the election, as the feeling is very strong in favor of union.—*Boston Jour.*

The royal Morgan horse owned by John Gregory, of Northfield, Vt., is 37 years old. His step is still quick and nervous, and he trots as square as ever.

"Did I hurt you?" said a lady the other day, when she trod on a man's toes.

"No, madam I thank you, seeing it's you; but if it were anybody else, I would have hollered out murder."

The lady who was *bent* upon having her own way, has been straightened by circumstances.

Read the Certificate of a Regular Practitioner.

This may certify that I have used Perry Davis' Vegetable Pain Killer in numerous cases, and believe it to be a very valuable medicine. I have prescribed it extensively in bowel complaints, (particularly for children,) and it is in my opinion superior to any preparation I have ever used for the relief of those diseases. When given to children I have always combined it with the syrup of gum Arabic, say ten drops to a teaspoonful of the syrup, well mixed. Others have mixed it with milk and molasses, equal parts. A HUNTING, M D

PERRY DAVIS' PAIN KILLER, as an internal remedy, has no equal. In Cases of Cholic, Summer Complaint, Dyspepsia, Dysentery, and Asthma, it will cure in one night by taking it internally, and bathing with it freely. It is the best Liniment in America. Its action is like magic, when externally applied to bad sores, burns, scalds and sprains. For the sick headache and toothache don't fail to try it. In short, it is a Pain Killer.

DR. P. P. QUIMBY,

Of Belfast, having made arrangements to remain in Bangor a portion of the summer, will be found at his rooms at the HATCH HOUSE, on Wednesday, May 19th, to attend such persons as may desire his services.

Those calling upon the Doctor should understand that he can form no reliable opinion except by an examination of the case, and the examination is describing the feelings of the patient and declaring the disease. Prior conversation with friends is of no value, and only occupies time which is valuable. may18tf

ALBANY, Sept. 13.

The American General Committee to-day challenge the Republicans and democrats to discussions in every county in the State, during the present campaign, after the fashion of Southern States.

WASHINGTON, Sept. 13.

Judge Bowlin Minister to Paraguay, arrived here this forenoon, and had an interview with Sec'y Cass at the State Department.

SPRINGFIELD, ILL., Sept. 13.

Judge Breese, of this State, publishes a letter in the Missouri Republican, on the subject of Illinois politics. He denies that he is a candidate for the Senate, and also the assertion that he supported Judge Douglas. He then denounces all conspirators and disorganizers against the honor and integrity of the democratic party; and says he will follow that party and no single person.

SANDUSKY, 13th.

The city is full of strangers, and the arrangements for the State Fair are complete. The Cosmopolitan Art Association pictures are on the ground. The exhibition is free to the public. The number of entries already made is two thousand, and the Fair will be the finest ever held in the State.

PORTLAND, Sept 13, 12 P. M.

We get but small returns from Congress, except from the 1st District, which is so close we cannot tell. We think Johnson, democrat, is elected in the 3d District. In 6th District, Foster, Republican is elected.

One hundred and thirty-four towns give Morse 32,595, Smith 27,108 against last year Morse 29,115, Smith 21,987. A Republican majority this year of 5,777, against last year of 7,129,—a democratic gain of 1352.

Supreme Judicial Court.

ANDROSCOGGIN COUNTY. AUGUST TERM, 1858.

HON. SETH MAY, J., Presiding.

Thursday, Sept. 2. State v. Josiah Perkins. This was an indictment against the defendant for tearing up the rails of the Buckfield Branch Railroad, owned by F O J Smith. The tearing up was admitted. He had sent a printed notice to F O J Smith that he should proceed to tear up the rails on the 6th of September, 1855, and on that day did proceed to tear up the rails.

The indictment was found at the last term, on complaint of Mr Smith, and was brought up for trial to-day. Before the case was opened to the jury Mr Smith was associated as counsel for the government with Mr Walton. The County Attorney opened the case to the jury, and introduced the testimony of the prosecution, at the close of which *Mr Fox*, counsel for the defendant, moved that the court order the jury to find a verdict for the defendant on the evidence of the government itself, contending

1st. That the indictment being for an injury to the Buckfield Branch, could not be sustained in the name of the Portland and Oxford Central Company.

2d. That it being admitted the defendant was the owner of the land over which the rail passed, and that the damages having been assessed by the County Commissioners, and not paid, he had a right to make such a use of the land as he saw fit, and a man could not be considered as acting maliciously in making use of his own land.

3d. That there was no sufficient proof of the organization of the Company.

In the course of his remarks Mr Fox said that he asked no responsibility in this matter, that he himself advised the defendant to the course he had pursued, and that his shoulders were broad enough to sustain all the [illegible] thereof. The ablest lawyers in the State had been consulted and coincided with his views.

The Court intimated its opinion that the action could not be maintained, upon which the County Attorney proposed to enter a *Nol. pros*, to which Mr Fox objected, and insisted upon a verdict of acquittal. Mr Smith tho't a verdict of acquittal might prejudice a civil suit for damages, but Judge May said that the verdict of acquittal could not effect in the least the civil suit, and instructed the jury to bring in a verdict of not guilty, which they did without leaving their seats.

Walton & Smith for State, Edward Fox for defendant.

BUSINESS MATTERS.—There is quite an active movement in business matters. In this city the wholesale dry goods and hardware merchants, who have suffered severely since the financial crisis, are now filling extensive orders, and clerks, porters and carmen are no longer oppressed with the burden of idleness. The accounts from the West are encouraging, and the quicker movement of produce imparts energy to all branches of trade.—*N. Y.* [illegible]

A German paper says the fastest rate of locomotion, after the electric spark, light, sound, and cannon balls, is ascertained to be the flight of a swallow. One of these birds liberated at [illegible], made its way to its nest in Antwerp in [illegible] minutes and a half, going at the rate of [illegible] miles and a half per minute.

WELL DONE, DEDHAM! We are informed by the messenger who brought the vote of Dedham, that the Republicans worked bravely in that town, and the result is a gain of nine on the vote of last year. Every vote in the town was thrown—the Republicans throwing 55 to the Democrats 31. This is the banner town in the matter of bringing out the voters.

NOTED PERFORMANCE OF A VETERAN VOTER.—Yesterday morning, Andrew Gray, who was born in 1776, and is consequently 82 years of age, started on foot from Blue Hill to go to [illegible]—a distance of twenty-eight miles—to vote. He accomplished the feat, and deposited a Republican vote in the ballot box at 2½ o'clock.

FOR SALE,

A valuable Mill and Lumbering privilege at [illegible], New Brunswick, consisting of a double Saw Mill, with all the modern improvements, a new Dwelling House and barn, Store and other buildings, and a Farm cutting about fifteen tons of hay, in addition to which, and immediately adjoining the Mill, this property embraces about nine thousand four hundred acres of wilderness land, in one block, well covered with Pine, Spruce, Hemlock, Cedar, and Hardwood, through which runs a chain of lakes and a stream furnishing an abundant supply of water for driving and sawing purposes. On the property is intervale land, which can be made to produce one hundred tons of hay at a trifling cost. The lakes extend into a very large and well timbered tract of Government land.

This desirable property is on Lake Utopia, within six miles of the village of Magaguadavic, and it presents a rare opportunity for a person wishing to carry on the lumbering business for the European or American markets. The present owners residing in England are disposed to sell the property at a reasonable price.

For further information apply to JOS. GRANGER, Esq., Calais, Maine, or to A. J. WETMORE, St. George, New Brunswick.

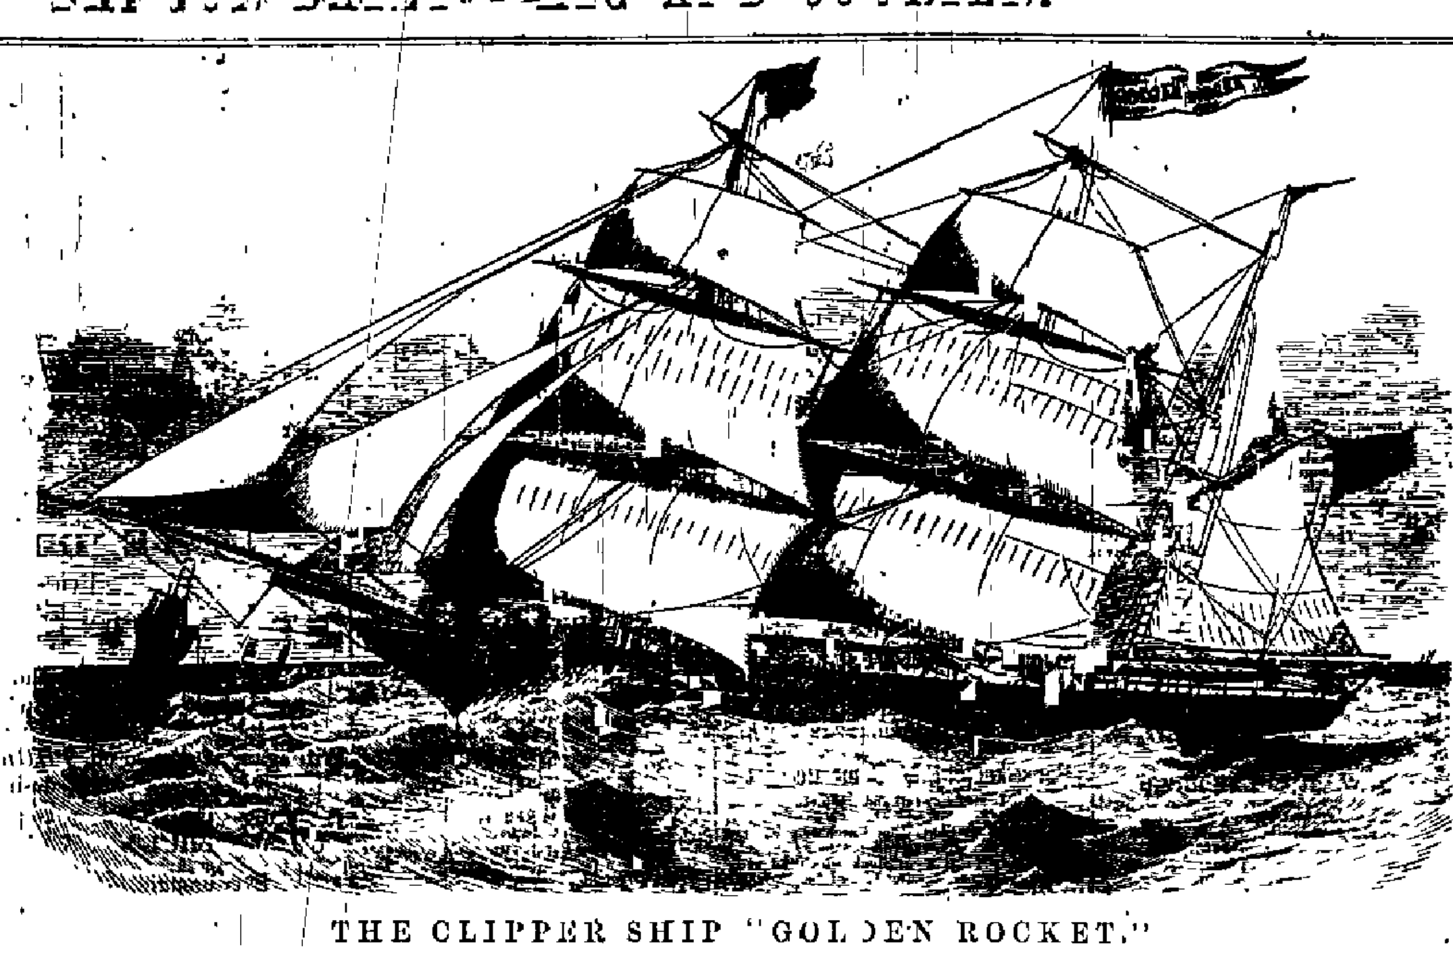
VIEW OF BANGOR, on letter sheet, for sale by D. BUGBEE & CO.



THE CLIPPER SHIP "GOLDEN ROCKET,"

Of 600 Tons, now on the Stocks in Messrs Cooper's Ship Yard, will be constructed expressly for a Packet, to run between Bangor and San Francisco, and will leave Bangor for that place about the middle of October next. It is confidently expected the GOLDEN ROCKET will make one of the quickest passages ever made from this State—as she will be commanded by one of the most experienced Ship Masters, who has already made three voyages to that place. The Golden Rocket will take out a small quantity of heavy freight in her lower hold, which will put her in perfect ballast or sailing trim (a part of the freight being already engaged.) She will have spacious "between decks," and houses on deck, fitted up expressly for women and children, with a large complement of female servants expressly to look after their wants—which arrangement will give those wishing to forward their wives or children to California an opportunity never before offered. Women who are obliged to labor for a subsistence, and who would wish to seek a home on the golden shores of California, where their services are better appreciated and better paid for than any other place on the globe, will find this a better opportunity than ever before offered in the United States—more especially in the accommodations they will have for the price they pay. There will be several commodious Cabins in the ship, and families or ladies desiring extra accommodations, will be furnished with State Rooms, &c, equal to those in first class steamers. Quite a large number of passages have already been engaged for men, women and children. The ship leaving here in the fall, will bring her off Cape Horn in midsummer, which will make the trip a pleasant one—and arriving in San Francisco about the first of February, the time when mining operations commence, will meet the wishes of a large number of those bound to the shores of California. Those wishing to write to their friends in California, and get returns, will have ample time between this date and the time the ship sails. The Golden Rocket will touch at Rio and Valparaiso on her passage out. Those wishing time on a part of their Passage or Freight Money, can have it by giving satisfactory security. **Passage $150.** For Freight or Passage, apply to

American & Foreign Patents.

R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington under the Act of 1837.)
76 State St., opposite Kilby St.,
BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also, in Great Britain, France, and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, of ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHAS MASON,"
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE,
Late Commissioner of Patents.

"Boston, February 8, 1858.

Mr R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all inventors* to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART."

From Sept. 17th, 1857, to June 17th, 1858, the subscriber, in course of his large practice, made on *twice rejected* applications, SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

American Safety Paper
Manufacturing Company of N. Y.

Capital $500,000.

A. NICHOLAS, President. Office, 70 Wall-st.

A Perfect Security against all manner of Fraud or Counterfeiting on Paper—To Prevent Photographs and Anastatic Counterfeits, Erasures, Transfers or Alterations.

HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper in America, invented and patented in England by HENRY GLYNN, a celebrated chemist and officer in the British army, it is hardly necessary to say that the Paper is recommended by Mr. Kent, Assayer of the U. S. Mint, Mr. Lyman of the New York Clearing House, and Meade Brothers, extensive and skillful photographers, 233 Broadway, N. Y. The latter say that no imitation can be made on a check or bank note printed on the Safety Paper. Below is our list of prices:

Bank Checks	35 cts. per lb.
Bank Bills	$18 for 1000 sheets.
Bills of Exchange	$25 for 1000 sheets
Promissory Notes	40 cts per lb
Sight and Time Drafts	$25 for 1000 sheets
Insurance Policies	40 cts per lb
Railroad Stocks and Bonds	40 cts per lb
Bank and State Stocks	40 cts per lb
Bonds and Mortgages	40 cts per lb
Wills and Deeds	40 cts per lb

For wrapping Silks and other fine articles it is excellent, as it prevents moths. 40 cts a lb

For Indentures and Agreements, 40 cts a lb

All State and County Records should always be printed or written on this paper, as the chemicals inserted in the pulp not only prevents erasure or transfer, but makes it lasting as time.

For Southern climates it is excellent, and much superior to any other, as the moistness of the climate does not destroy it,—the properties inserted in the pulp being a preventive. In all the Southern States, Cuba, the West Indies, and the Central American States, no public records can be kept over 20 years, written on the ordinary paper, while the oils and other chemicals inserted in this paper makes it indestructible by the ravages of time. It is also proof against moths, rats and other vermin, which feast on and destroy all other paper now in use.

The Company have now in operation Mills in Morris County, N J, of about 300 horse power, and are able to fill all orders for Paper at the shortest notice.

All orders for the Paper must be addressed to A. NICHOLAS, President of the Company, No. 70 Wall street, New York.

Hitchcock's Combination Suction and Force Pump!

FOR SALE, a new kind of PUMP—suction and force—different from any thing now in use, for durability &c. You can draw water from a deep well and force it to any part of your buildings at the same time, in case of fire or any other exigency. You can have it with or without the forcing part. Any person, with a jack knife can do all the repairing that it will need for twenty years, as it will not get out of order and is not liable to freeze up like other Pumps. It has received the first premiums at four State fairs, and numerous county fairs.

It may be examined at the Tin Shop of P. B. MILLS, Exchange street, Bangor, where I shall remain for a few weeks. Town rights for sale.

THE LIVER INVIGORATOR,

PREPARED BY DR SANFORD,

Compounded entirely from Gums,

IS ONE OF THE BEST PURGATIVE AND Liver Medicines now before the public.

LIVER INVIGORATOR

These *Gums* remove all morbid or bad matter from the System, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, *purifying the blood*, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

Bilious attacks are cured and what is better prevented, by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring prevents *nightmare*.

Only one dose taken at night loosens the bowels gently, and cures *costiveness*.

One dose taken after each meal will cure *Dyspepsia*.

One dose of two teaspoonfuls will always relieve *Sick Headache*.

Only one dose immediately relieves *Colic*, while

One dose often repeated is a sure cure for *Cholera Morbus*, and a preventive of *Cholera*.

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for *Jaundice* removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated cures *Chronic Diarrhoea* in its worst forms, while *Summer and Bowel Complaints* yield almost to the first dose.

A few bottles will cure *Dropsy* by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for *Fever and Ague*, *Chill Fever* and all Fevers of a Bilious type. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

Price One Dollar per Bottle.
